TÜRKİYE

The cooperation of our founders, Reyhan Aytekin and Özlem Erbaş, started in 2012. Ever-speeding and full of intense international experiences in trade in 2018, their cooperation was reflected on various projects. Food package-oriented project was given life in international trade in 2021. Such project in export and supply spread through different sectors in 2021 and 2022. Together, they established the “MAESTRA” brand in 2023.

Maestra provides long-term and sustainable services, professionally tailored to its customers accommodating their needs and expectations. Our company pays regard to customer satisfaction, while also inspecting and controlling product quality, which endeavors to provide result-oriented solutions in respect of any problems likely to arise.

Maestra cooperates with the most valuable manufacturers and brands in our country which cares for quality, with high sense of responsibility, are experts in their fields and certified. Maestra and its cooperating manufacturers are solution partners.

Maestra has set forth on a bridge connecting countries worldwide and Turkey, and conducts its operations with the full sense of doing business in international standards.

MAESTRA

PRODUCTION

Our solution partners, manufacturers we cooperate with, make continuous investments in high-tech machinery and equipment, highly technically equipped and trained human resources, and carry out Research&Development studies for product diversification and quality. They use first class quality raw materials suitable for products in contact with food and produce high quality hygienic products. They follow the national and international standards continuously and apply the "total quality" approach to all the products, with a disciplined and systematic work.

They prioritize customer satisfaction with a competitive price policy, fast and reliable delivery, and a stable production approach.

Square

Superior edge: 11 cm

Inferior edge: 9 cm

Depth (h): 4 cm

Volume: 300 ml

Use it as a baking mould for your minicakes or a container for frozen food or just to heat your lunch in microwave in office. They are very practical with heat resistant, nonstick and light properties. It is elegantly designed with the laminated high quality printing paper. Thanks to the porcelain look it can be presented on every type of table. The edge of paper cups which are round or square, are curled and reinforced.

In food industry they are used in baking lines. They are used for hot, wet and greasy food and to bake all the salty and sweet pastries: minicakes, muffin, cupcake, soufflé, crème brûlée, minipie or tart. Moreover, heat resistant paper baking cups are preferred to the traditional containers because the food is filled in heat resistant paper cups, is frozen, is brought on supermarket shelf and is baked in oven or microwave by final consumer and is presented always in the same elegant paper cup.
